Shows

This year we will be attending the ANDA shows in Perth & Sydney. We will also be attending the Petersham shows.

Market

The coin market remains strong from junk to gems. Overseas if anything is even more bouyant than here. Russian, Chinese & South African in better grade at 10 times catalogue for example. The Heritage auction in New York saw a 1937 Crown NGC graded PR 61 realise 27,000 US. This coin sold over the internet sight unseen.

As usual very hard to source new material. Rubbish in general auctions now sells to internet dealers at very strong levels. Better coins are well sought after. I guess it finds it's way to ebay one way or another.

This auction we have a better selection than usual of world material. A fair percentage PCGS graded.

The population reports on Australian coins is becoming very interesting. Have a look at the site PCGS.Com, Pop reports World Coins. For instance the 1927 Canberra florin in MS66 is the sole second finest graded (one in 67) of a total 74 Canberra's graded.

Any questions re catalogue please give me a call.

Regards Chris Buesnell
