Coinline Auction Number 76 August 2008

Welcome to Coinline 76. As some of you may have noticed the last auction worked very slickly. We have just had all the software re-written to make bidding easier. I still recommend bidding early but last minute calls may get through.

This auction presents some nice material. We have consigned a nice run of notes all original. They were found on a construction site along with a large quantity of silver .

(the coins were by and large worn out)

The last of the George V1 and Elizabeth 11 silver is offered this time. The vendor purchased most of the coins in Sydney in the 1980's. If you are chasing any dates to complete your collection now is the time. I don't think the coins can be replaced at any where near our opening bids.

Also on offer some nice world coins along with some nice GB. We also have sourced a few other collector lots of Australian especially nice copper.

Our representation of PCGS is small this time , with the quality again being high. Several of the coins are finest of date. Of note the 52 florin, 38 crown, 11 1/2d & Penny.

Upcoming Shows

A few shows on the horizon. We will be at all & hope you can make it

Sydney ANDA at Randwick

Petersham on the 30th of August.

Perth Collector show in October

New Stock

We are always buying new material so if there is that particular coin you need please drop us a line. We have had some great coins this last month including a MS65 1914H Florin, 1915H Florin in MS64 as well as a 1933 Florin MS64.

Shop

Our retail premises is being fitted out as I write. Still a few weeks of but will keep you posted

Good luck with your bidding

Regards Chris Buesnell

Recommendations

What to collect?

A few ideas as I feel to collect the entire series now almost impossible.

1955 to 1963 Proofs

52 Coins in the set. These look fantastic in PCGS holders and prices will continue to increase

Edward V11 Silver

Issued in 1910 will be 100 years old in 18 months time. Promotions will be on as well as something from the mint.

Type Sets

PCGS graded type coins. For example a 1947 3d in MS65 hardly seems expensive now. Collection 1 of each monarch, 1 of each denomination

Gold

Australian numismatic gold has never been more affordable. I particularly recommend Australian halves
