Coinline Auction Number 77, September 2008

Welcome to Coinline 77.

Our retail premises in Sydney is now open.

The address is Shop 8, 109 Pitt Street.

The Arcade is known as the Hunter Connection and is basically 5 minutes walk from Wynyard Station.

Coins from this auction can be viewed on site & we hope if you get the chance you can drop by. We also have many other great items in stock.

This auction again has quite a good cross section of lots. We have a nice run of Mint Product and an expanded section of cheaper world coins. Our British a bit thin this time with new material hard to source. Our Australian again a bit thin as last auction saw a big clean out of stock. There are plenty of coins around but prices are going up. As I've mentioned before E Bay dealers have pushed the market on lower end & key date material to quite high levels.

If you haven't had a chance to look at the PCGS web site please take the time. The Australian population report can be found on the World Section. There have now been over 10,000 Australian coins graded. The Pre decimal proof section is also very interesting with about 5% of the 1955 to 63 proof series graded. It is interesting that there has been over 50 1957 Perth pennies graded.

This series I still highly recommend & they look great in PCGS holders. Third party grading is driving this market.

Readers of the Australian Coin & Banknote magazine may have noticed several articles on "slabbing". Most written here miss the point entirely. That is the graders at PCGS are independent of the buyer & the seller. That is what third party grading means. This independence means that the bias of the seller & buyer is taken out of the equation. Why buy a coin that may cost thousands of dollars & take the seller's opinion as to the grade & hence the value? As usual any questions about lots please give me a call

Regards Chris Buesnell
